Genetic Key

Color Panel

Capital letters indicate the horse has one or two copies of the gene

R-Factor (E = Black and e = Red)

Agouti is the Bay/Brown Gene, A indicates they have this gene

Roan: Rn/Rn is two copies, Rn/n is one copy, N/A means the horse is not roan so it was not tested

The (-) indicates the gene is unknown. It was either not tested or cannot be verified by parentage.

Disorder Panel

N/N or n/n indicate the horse does not carry the gene for the disorder, if anything but a N or n is present the horse has one copy of the gene
